EXAMINER'S AMENDMENT *Amdt/pmp*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: in claim 2, on line 1, the "claim 2" changed to claim "claim 1", since the claim 2 has been canceled.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the claims are allowable over prior art of record Sun et al. ("Silica-Based Circular Cross-Sectioned Channel Waveguides" and Keyworth et al. (5,534,101), because both references does not disclose a waveguide core structure which is at least partially rounded in cross-section, as discloses in claims 1, 11, and 20. This limitation is critically, since the waveguide having a core that is rounded and, more preferably, substantially circular in cross-section is desirable in order to improve light-transmission properties while reducing insertion loss due to optical fiber/waveguide coupling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
